

Burlington Northern Santa Fe
Road Numbers BNSF 880299/880321

These 56' general service tank cars are painted black with white lettering and run on Barber Roller Bearing trucks. Built in 1983 as part of series 880298-880326 they were designed to carry just about any liquid commodity ranging from potable water to fuel oils and sweeteners. Carrying in excess of 26,000 gallons, these welded cars could be found in long strings and in mixed freight nationwide after the Santa Fe and Burlington Northern merger in 1995.

Baltimore & Ohio®
Road Number 733

This 70' heavyweight horse car is painted in the blue and gray scheme and ran on 6-wheel passenger trucks. It was designed to transport valuable livestock between race tracks and training facilities during the 20's and 30's. During WWII they moved cavalry units, acted as early auto transport cars and then as they transitioned with lightweight cars, became express baggage cars.

#149 00 090...\$34.90

Canadian National
Road Number 7774

This RPO heavyweight passenger car is painted green with a black band and yellow lettering and ran on 6-wheel passenger trucks. Given the great expanse of Canada, mail moved by the rail-road became an important revenue source and lifeline between population centers. These 60' RPO's found service in mixed freight and provided much needed postal services in remote areas.

#140 00 150...\$34.90

Delta Valley & Southern
Road Number DVS 1041

This 50' rib side box car with single door and no roofwalk is painted orange-red with white and black logo and runs on Barber Roller Bearing trucks. The DVS is a 2 mile short line that interchanges with BNSF near Wilson, Arkansas servicing local industries and a cotton processing plant. These leased cars provided much needed capacity to smaller roads helping them compete with larger regional companies.

**Seaboard Air Line
Road Number SAL 60003**

This 60' double plug door boxcar was designed to provide enhanced protected transportation and carried everything from general freight, consumer electronics to auto parts. Decorated in the later "Green Hornet" scheme, they were part of a small series of cars that survived through several mergers eventually becoming CSX in 1986.

#122 00 100...\$28.55

**Ontario Northland
Road Numbers ONT 7412/7425**

These 50' rib side box cars with plug doors and no roofwalk are blue with yellow ends and aluminum roofs. Built in 1990 by National Steel Car Company in Hamilton Ontario as part of series 7400-7449, their main freight commodities are lumber and mining products.

#027 00 041...\$29.95
#027 00 042...\$29.95

**Lehigh Valley
Road Number 79008**

This 40' double-sheathed wood box car with 1-1/2 door is brown with white lettering. Built in 1916, this car was designed to carry automobiles and protect them from road wear and cinders from the locomotive pulling the train. With an 80,000 lb weight limit these cars rode on National B-1 trucks and had some of the early steel underframes with fish belly sides.

PWRS Special Run-Canadian National 57' TOFC

Pacific Western Rail Systems is pleased to announce two new additions to our "Canadian Trailer on Flat Car Series" Limited Run PWRS—Micro-Trains Runner 3-pack. The CN Flat cars are brown with white lettering. Two flat cars will carry 45' CN trailers featuring Rainbow graphics and the Expo86 logo, and the third flat car will carry a 48' CN trailer featuring Killer Whale graphics and the Victoria '94 Commonwealth Games logo. Prior to containerization, piggyback or Trailer On Flat Car (TOFC) was an important transitional step between boxcars and intermodal technology developments, which in turn led to today's long trains of double-stacked containers. Initially, piggyback loading/unloading ramps were built at or near major yards. Tractors backed trailers on and drove them off strings of flat cars, a process called circus loading.

CN TOFC with 2x Expo86 and 1x Victoria '94 Commonwealth Games trailers pack... \$159.95
